My name is Ida Putu Sucita Danuartha, you can call me Danu. I'm a fresh graduate from a Vocational High School and currently studying at Primakara University majoring in Informatics, faculty of Information Technology and Design.

I first started to know about the world of technology in July 2021 and the technologies that I learned at that time were HTML, CSS and Javascript. The first month was a difficult time for me to able to learn something that I had never studied before, but with enthusiasm, motivation and my interest int the world of technology was so high that it allowed me to survive until now.
